

It's a privilege to be trusted with your children. We look forward to the next time we get to share the love of Jesus with them. At Northside we have 3 priorities when it comes to children: 1) we want to teach them about Jesus and His Word; 2) we want them to know they are loved and that we care for them; 3) we desire that they learn in an age-appropriate environment that is safe and secure.

Visitors must fill out a visitor form at the visitor desk their first week. The visitor form gives us the information we need in order to put your child(ren) in our automated security system. This means upon your next visit, you can go straight to an automated check-in counter (the picture to the left is what the screen will look like upon arrival). You will simply need to type in your family's last name at this screen. You can even just type the first 3-4 letters of your last name and the system will find you.

After you type in your last name, you will tap the "enter" button and a screen will appear with your children's names listed (as seen to the right). You will tap the "check in" button for everything your children will be attending that morning. After tapping "check in" for everything your children will be attending, press the "Print Badges and Finish" button. A name badge will print for each child and a parent badge will print if you have a child in preschool ministry (you only need to show a parent badge if you are picking up children who are 5 years old and younger).

This completes the check-in process. Your children's name badges will print with all the relevant information their teachers need including allergy information. If you have checked your child into a Connect Group and Kids Worship the teacher will move them between these two activities for you. You will need to pick them up from the last activity they were checked into. Please, place the badge on the child and be prepared to show your parent badge if you are picking up a child who is 5 years old or younger. If you have any difficulties or need assistance in this process, please, find someone at the visitor check-in desk, and they will be happy to assist you.
